

# TM1 Telecom Interface Module

## Installation Instructions

### Product Description

This module is used to interface the telecom network to the panel telecom circuit via an FCC-68-specified plug.

### Installation

Secure the module to the inner side or bottom of the enclosure with the double-sided adhesive tape provided. Alternately, holes can be drilled in the enclosure and 1/4" plastic standoffs can be used to secure the module.

For wiring connections, see the wiring diagram below.

#### Wiring Diagram (Component Side)

#### Wiring Definitions

Green = Incoming 'TIP'  
 Red = Incoming 'RING'  
 From the telecom network

Yellow = Outgoing 'TIP'  
 Black = Outgoing 'RING'  
 To the remaining telecom equipment at the site

**WARNING: Please refer to the System *Installation Manual* for information on limitations regarding product use and function and information on the limitations as to liability of the manufacturer.**
