# **EXSITE® IR PTZ ENHANCED 2 SERIES**

#### 2 MP

# SEE IN TOTAL DARKNESS OR BLINDING LIGHT WITHIN HAZARDOUS ENVIRONMENTS

The ExSite® IR PTZ Enhanced 2 Series is an explosion-proof, Day/Night Pan-Tilt-Zoom (PTZ) camera with built-in IR illumination. This dual-headed video security camera offers up to 30x zoom and full 1080p resolution. The IR illuminator provides clear object detection up to 200m away, even in total darkness and at different zoom levels. Designed with AISI 316L stainless steel and micro-shot, electro-polished surfaces, it offers maximum resistance in corrosive environments, such as industrial and marine locations. In addition, the ExSite IR PTZ offers up to IP69, NEMA Type 4X and Type 6P ratings, ensuring protection against extreme conditions, including water and dust. With the Small Form-Factor Pluggable (SFP) slot built into the junction box, this PTZ camera provides easy installation through fiber optic connections.

### **FEATURES**

| [ <b>%</b> ] | [œ | 5  |
|--------------|----|----|
| 12.77        | L° | ~- |

### SMART ANALYTICS POWERED BY MOTOROLA SOLUTIONS

Detects and classifies more objects for greater accuracy and faster responses, even in crowded scenes.<sup>1</sup>

# 7

#### HAZARDOUS LOCATION CERTIFICATIONS

Heavy-duty housing meets stringent explosion-proof and dust ignition-proof requirements while complying with international standards (UL, CSA, ATEX, IECEx, EACEx, KCs, UKEx, INMETRO).

#### HIGH-TEMPERATURE RANGE

Optimized to operate reliably even at increased temperature variances: from -40°C (-40°F) up to +70°C (+158°F).

#### **VARIFOCAL IR ILLUMINATION**

Integrate automated IR varizoom, illuminating up to 200m from the camera to see events in the dark.

ONVIF is a trademark of Onvif, Inc.

<sup>1</sup> Analytic capabilities are based on home position only.

### H.264 AND H.265 WITH SMART COMPRESSION TECHNOLOGY

Optimizes compression levels for regions in a scene to help maximize bandwidth savings and keep storage costs down.

#### **ONVIF® COMPLIANT**

ONVIF Profile S, G and T compliance allows for easy integration with existing ONVIF infrastructures. Integrates with Pelco VideoXpert and other leading video management systems.

#### WIDE DYNAMIC RANGE

Captures high-quality image details in scenes with dark and light backgrounds.

#### PEACE OF MIND

We back this camera with a 3-year industry-leading warranty.

For more information, contact your local Pelco sales representative today at pelco.com/about/contact-us/#form.

|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|--|--|--|
| The event is triggered when the selected object type moves into the region of interest.                                                                                                            |  |  |  |  |  |
| The event is triggered when the selected object type moves into the region of interest, then stays for an extended amount of time.                                                                 |  |  |  |  |  |
| The event is triggered when the specified number of objects have crossed the directional beam that is configured over the camera's field of view. The beam can be unidirectional or bidirectional. |  |  |  |  |  |
| The event is triggered by each object that enters the region of interest and can also be used to count objects.                                                                                    |  |  |  |  |  |
| The event is triggered when no objects are present in the region of interest.                                                                                                                      |  |  |  |  |  |
| The event is triggered when the specified number of objects have entered the region of interest.                                                                                                   |  |  |  |  |  |
| The event is triggered when the specified number of objects have left the region of interest.                                                                                                      |  |  |  |  |  |
| The event is triggered when an object moves into a region of interest and then stops moving for the specified threshold time.                                                                      |  |  |  |  |  |
| The event is triggered when an object moves in the prohibited direction of travel.                                                                                                                 |  |  |  |  |  |
| The event is triggered when the scene unexpectedly changes.                                                                                                                                        |  |  |  |  |  |
|                                                                                                                                                                                                    |  |  |  |  |  |

### **EXPLOSION-PROOF COMMUNICATION BOX**

A communication box includes a 3-port RJ45 and 1 SFP port Ethernet switch and 24 VAC output for powering up to one of the following:

- 2x EXC2602 fixed compact cameras
- 2x EXF2230 fixed cameras with 2x washer pump
- 1x EXP2230 PTZ camera with 1x washer pump

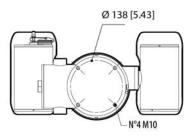

| PART #                        | DESCRIPTION                                                                                                                                                  |
