## Miniature self adhesive magnetic contact

### Self-Adhesive Contact

---

The Sentrol 1035 series magnetic contacts saves installation time through the use of a specially formulated 3M adhesive tape. The tape, which establishes a permanent bond between the contact and the surface, can be repositioned during the first 5 minutes. A low profile and small footprint combine with reliable Sentrol technology to make the 1035 series the perfect magnetic contact for those situations where drilling holes is impractical.

### Durability and dependability

---

The Sentrol high performance magnetic contacts have been designed to facilitate installation and ensure durability and dependability. Most are conservatively rated at 10,000,000 cycles, guaranteeing a long life. Every reed connection is hand soldered and each magnetic contact is tested before they leave the factory, 100% of the time.

### High quality components and materials

---

Reed legs are plated with rhodium or ruthenium, and hermetically sealed in dry nitrogen. This offers superior protection against sticking and provides a moisture free environment therefore preventing corrosion.

### Details

---

- Quick tape mounting, no screws or glues needed
- Convenient surface mounting
- Urethane/acrylic tape bonding improves with age
- Tamper loop provided (depending on type)

# 1035W-N

## Miniature self adhesive magnetic contact

### Technical specifications

---

#### Gap distance (max)

---

25 mm

---

#### Connections

---

30 cm wire leads

---

#### Contact

---

NC

---

#### Supervised loop

---

No

---

#### Dimensions (L x W x H)

---

38 x 6 x 9 mm

---

#### Color

---

White
